Lite Bulb Moments UVC Smart Care incl. Smart base

Lite Bulb Moments UVC Smart Care incl. Smart base
(This product contains two separate products, and they must only be used together)

Transform your living space into a healthier, safer environment with the innovative Germicidal UV-C Lighting from Lite Bulb Moments. Designed to neutralize harmful pathogens such as viruses, mould, and bacteria, the revolutionary Lite Bulb Moments UV-C Lighting guarantees peace of mind at home with its dynamic features and cutting-edge technology. It is designed to disinfect rooms up to 20 Sqm; the system offers ultimate health protection and safety within the walls of your living space.
Lite Bulb Moments Smart Care solution is approved and certified by 2 Danish test facilities. The Danish Technological Institute and House Test Aps.

- Advanced Germicidal Action
- Dimmable Settings
- Intelligent Timer Function
- Integrated Routines and Scenes
- Compatibility with Google Home Assistant, Amazon Alexa
- Advanced Germicidal Action

Dimmable Settings
Adjust lighting based on your need and preference with the dimmable settings option. Tone the light for a cosy atmosphere or brighten it up when necessary. Your perfect lighting mood is just a click away!

Intelligent Timer Function
Take advantage of the timer functionality to customize the disinfection process. Whether it's turning on the UV-C light at 1:30 every night or only on weekdays, this intelligent feature ensures consistent germ-free conditions.

Integrated Routines and Scenes
Personalize your lighting package through routines and scenes that accommodate your lifestyle and daily habits. This allows you to execute specific lighting commands for morning schedules, night routines, or during specific activities.

Compatibility with Google Home Assistant, Amazon Alexa
Experience hands-free control of your Germicidal UV-C Lighting system through its seamless compatibility with Google Home Assistant and Amazon Alexa. Just say "Hey, Google" or "Alexa" to initiate voice commands and control your lights wherever you are!

Setup/ installation
2.4G + 5GHz Router Support, even if the Wi-Fi connection is one SSID.
The products will automatically find their way to the 2,4 GHz Channel. If you have a Wi-Fi router with a combined channel (2,4 - 5GHz), you will have no problems and can very easily connect/ install the products. The light supports both Wi-Fi and Bluetooth.
Use the step-by-step guide in the TUYA app
You find the TUYA app in Google Play Store or Apple App Store.
