- Dimmable light with timer routines

Adapts light to your circadian rhythm
Lite Bulb Moments can adjust the light quality throughout the day to support your natural rhythm. Use cooler light when you want to stay focused and warmer tones in the evening when it is time to relax. This helps create a more comfortable lighting environment for work, rest and daily routines.

Full RGB colour and adjustable white ambience
Choose from a wide RGB colour range to match the mood of your room, from calm ambient tones to more colourful settings for social moments. The white ambience range from 2700 K to 6500 K gives you flexible control, from warm white light to clear daylight-style illumination.

Works with Google Assistant and Amazon Alexa
Control your lighting with simple voice commands when connected to Google Assistant or Amazon Alexa. Turn the bulb on or off, adjust brightness or change the lighting without reaching for your phone.

Direct Wi-Fi setup with TUYA, no hub needed
The bulb connects directly to your existing Wi-Fi network and can be set up through the TUYA app. No additional hub is required, making installation simple and suitable for most homes. The bulb supports both Wi-Fi and Bluetooth for convenient setup.

Dimmable light with timer routines
Adjust the brightness through the app to suit different activities, from bright everyday lighting to soft evening ambience. The built-in timer function lets you schedule automatic on and off routines, helping you use light more efficiently and ensuring your home is lit when you need it.
