

Crafted by Sensibo, Pure is a top-notch air purifier designed to change the game in air filtration. Say goodbye to allergies, dust, bacteria, and viruses, as Sensibo Pure provides clean and pollution-free air within your spaces. With advanced Pure Boost technology and a 3-phase filtration system, Sensibo Pure is making strides as the best in the market.

- Autonomous Operation
- Environmental Friendly
- Pure Boost Technology
- Smart Triggers
- 3-phase Filtration System

Autonomous Operation

Designed with an indoor air quality sensor, Sensibo Pure ensures a worry-free experience. It operates 24/7 to monitor your indoor air quality and turns on and off autonomously. And that's not all; it's intelligent enough to tweak its operations based on the people in your home.

Environmental Friendly

Being conscious of your carbon footprint is just as important as enjoying clean air. With a mere power consumption of 23W, Sensibo Pure is evidence of high-efficiency performance delivered with minimal environmental impact.

Pure Boost Technology

The Pure Boost technology is what makes Sensibo Pure stand out. When pollution levels rise, Pure Boost triggers your AC fan to increase air circulation, ensuring more air purification. Plus, it sets the purification on turbo mode when you leave home, guaranteeing safe and clean air upon your return.

Smart Triggers

Sensibo Pure utilizes smart triggers that coordinate with your AC fan to boost air purification by up to 70%. This integrated system ensures optimal air circulation and purification in your home.

3-phase Filtration System

With a pre-filter, HEPA Filter, and Active Carbon Filter in place, Sensibo Pure produces the finest filtration outcomes. It effectively filters particles as small as 0.1um, including bacteria, viruses, dust, smoke, and foul odours, ultimately making you healthier.

Package Includes

- 1x Sensibo Pure air purifier, and 1x Filter - White

Product Specifications

- Brand: Sensibo
- Colour: White
- Pollutants: Viruses, bacteria, mould spores, pollen, smoke, PM1, PM2.5, PM10, dust and airborne particles down to 0.1um.
- Life of the filter: 6 months under normal conditions and use
- Dimensions: WxDxH, 195 x 195 x 388 (mm)
- Room size coverage: Purifies up to 27 m² in Pure Boost mode and on lowest power up to 16 m²
- Noise level: 53 dB
- Cord length: 183 cm
