

Step into a world of pure, clean air with the Sensibo Pure Filter. Meticulously designed to enhance the efficiency of your Sensibo Pure Air Purifiers, the filter uses cutting-edge filtration technology to transform your living environment into a sanctuary of freshness.

- Triple-layered filtration system
- Advanced HEPA and Carbon filters
- Captures minute particles, as tiny as 0.1um
- Efficient absorption of harmful gases and odours
- Custom replacement frequency tailored to your usage and environment

Triple-layered Filtration System

Sensibo Pure Filter promises a comprehensive cleaning operation thanks to its triple-tack approach to air filtration. With three progressive layers of filtration, your surrounding air is exhaustively scrubbed clean of impurities, ensuring the safety and healthfulness of your living space.

Advanced HEPA and Carbon Filters

We've incorporated advanced HEPA and Carbon filters into the Sensibo Pure Filter. The HEPA filter successfully filters out incredibly minute contaminants like bacteria, viruses, and particulate matter. It tackles particles as small as 0.1um (far thinner than a human hair). The Carbon Filter is a master of gas and odour absorption, trapping harmful atoms and purifying your air.

Captures Minute Particles

Our filtration technology knows no size. With the ability to capture particles as tiny as 0.1um, even the most microscopic intruders can't escape the Sensibo Pure Filter's relentless pursuit of clean air.

Efficient Absorption of Harmful Gases and Odours

The Sensibo Pure Filter isn't just about solids. Its active Carbon Filter efficiently absorbs atoms of harmful gases such as smoke and Volatile Organic Components (VOCs), providing you with air that's not just clean but also smells fresh.

Custom Replacement Frequency

We understand that every home is unique. The Sensibo Pure Filter utilizes a specific algorithm to ascertain your home's ideal filter replacement period based on your personal usage patterns and environmental factors.

Package Includes

- 1 x Sensibo Pure Filter - White

Product Specifications

- Brand: Sensibo
- Colour: White
- Pollutants Filtered: Viruses, Bacteria, Mold Spores, PM1, PM2.5, PM10, Pollens, Smoke & Odours, Dust Airborne particles down to 0.1um
- Room Size Coverage: 173 ft² (16 m²) With Pure Boost* up to 294ft² (27 m²)
- Dimensions (WxLxH): 6.69" x 6.69" x 9.05" (170mm x 170mm x 230mm)
- Filters: 3 phases filtration system: Pre-Filter, HEPA Filter and Active Carbon Filter
- Compatibility: Works with Sensibo Pure
- Filter Life: 6 months in typical conditions and usage
- Weight: 4.28 lbs (1.94 Kg)

SPECIFICATIONS

Carton: 1/18
Item ID: SEN-PUR-FLR-01
EAN: 7290016037227
Size: 170 x 170 x 230 mm
Weight: 550 g
