

Introducing the WOOX Zigbee Smart Door & Window Sensor - a savvy and efficient way to enhance the safety of your home. This smart sensor ensures you're alerted every time a door or window is opened or closed and easily integrates with other WOOX home smart devices for convenient home automation.

- Requires WOOX Zigbee Hub for operation
- Compatible with Amazon Alexa and Google Assistant for voice control
- Remote access for control from anywhere
- Alarm notification system for door and window sensors
- Can set automation with other WOOX home devices

Requires WOOX Zigbee Hub for Operation

The WOOX Zigbee Smart Door & Window Sensor works seamlessly with the WOOX Zigbee Hub to maximise its functionality. This hardware is crucial as it is the command centre for the Zigbee network that connects all WOOX smart devices.

Compatible with Amazon Alexa and Google Assistant for Voice Control

Adjust configurations and settings merely by using your voice! The device integrates seamlessly with Amazon Alexa and Google Assistant, enabling hands-free operation for your convenience.

Remote Access for Control from Anywhere

With our WOOX Zigbee Smart Door & Window Sensor, never worry about home security, even when you're away. Leveraging the power of the free WOOX Home app, this highly intelligent gadget can be controlled remotely from your tablet or smartphone.

Alarm Notification System for Door and Window Sensors

Stay updated in real-time with our alarm notification system. The WOOX Zigbee Smart Door & Window Sensor alerts you through the WOOX Home app whenever a door or window is opened or closed, ensuring safety and security.

Can Set Automation with Other WOOX Home Devices

Experience the ease of home automation with our WOOX Zigbee Smart Door & Window Sensor. Automate tasks such as switching lights whenever a door is opened for a personalized and cohesive smart home setup.
