

Navigate through the era of smart home automation with the WOOX Zigbee Smart Wireless Mini Switch! This versatile switch extends limitless possibilities to create various scenarios, working harmoniously with other WOOX smart devices. Place it anywhere without breaking the wall, making itself a handy add-on to your smart household.

- Zigbee Security Sensor Family Member
- Requires WOOX Zigbee Gateway
- Compatible with all WOOX Smart devices
- Voice Control Service with Amazon Alexa
- Acts as a Central Automation Hub

Zigbee Security Sensor Family Member

The WOOX Zigbee Smart Wireless Mini Switch is an integral part of the Zigbee Security Sensor Family, ensuring seamless integration with all Zigbee enabled devices. It bolsters your home security with its intelligent features and smart connectivity.

Requires WOOX Zigbee Gateway

To use this innovative switch, a WOOX Zigbee Gateway is required. This paired functionality ensures stable and efficient control over the switch and other connected devices in your smart ecosystem.

Compatible with all WOOX Smart Devices

This mini switch showcases unparalleled compatibility, playing nice with all other WOOX smart devices. It initiates and controls various scenarios with a simple press, turning your space smart and responsive.

Voice Control Service with Amazon Alexa

The switch works smoothly with Amazon Alexa's voice control service, adding a new dimension to hands-free convenience. It empowers you to manage your connected devices through vivid voice commands, making your daily life easier than ever.

Acts as a Central Automation Hub

The WOOX Zigbee Smart Wireless Mini Switch serves as a central automation hub, especially when it teams up with the WOOX light bulb or other devices. It effortlessly turns your premises into a smart, secure, and efficient abode.
