

This is no ordinary remote control. The Wox Zigbee Smart Remote Control is a versatile device that keeps your home secure and comfortable. It's compatible with all WOOX Smart devices and works seamlessly with Amazon Alexa's voice control service. With its unique features and functionalities, the Zigbee Gateway elevates your home automation experience to a new level- smart, compact, and incredibly efficient.

- Requires a WOOX Zigbee Gateway
- Full integration with all WOOX smart devices
- Compatible with Amazon Alexa's voice control
- Functionalities: Away, At home, Disarm or Emergency
- A must-have for a complete home automation experience

**?Requires a WOOX Zigbee Gateway**

The Zigbee Smart Remote Control works in conjunction with a WOOX Zigbee Gateway. This enables greater control, seamless integration, and a unified home automation experience.

**Full Integration with All WOOX Smart Devices**

This remote control isn't just about the security system - it lets you command all your WOOX smart devices. It's a central hub that gives you unprecedented control over your home's smart systems.

**Amazon Alexa's Voice Control Service Compatibility**

Enjoy the convenience of hands-free operation with Amazon Alexa's voice control service. You can arm or disarm your security system, change settings, and manage your smart devices with simple voice commands.

**Functionalities: Away, At Home, Disarm or Emergency**

The Smart Remote Control can change your alarm system status to Away, At Home, Disarm or Emergency, giving you complete control over your home's security. It's like having a security team at your fingertips.

**A Must-Have for a Complete Home Automation Experience**

The Zigbee Smart Remote Control wraps up your home automation experience in a neat, compact package. Wherever you go, your smart home goes with you.
