Süti CurlyCable - Black

CurlyCable is a compact USB-C to USB-C cable designed for travel, work, and everyday charging. Its soft silicone body feels smooth in hand, while the coiled design keeps it tidy in your pocket, bag, car, or desk setup. It stretches when you need extra reach and springs back into shape when you are done.

- Compact coiled USB-C to USB-C cable
- Extends to 90 cm and coils to 17 cm
- Supports charging up to 60W
- Transfers data at up to 480 Mbps
- Soft silicone finish with reinforced construction

Compact coiled USB-C to USB-C cable
CurlyCable is made for situations where a full-length cable gets in the way. The coiled design helps reduce clutter and keeps the cable compact when not in use, making it easy to carry in a pocket, tech pouch, backpack, or car compartment.

Extends to 90 cm and coils to 17 cm
The cable stretches up to 90 cm when you need more reach, then returns to a compact 17 cm coiled length. It is practical for charging in the car, connecting devices on a desk, or plugging in behind furniture while keeping excess cable under control.

Supports charging up to 60W
With support for up to 3A and 60W Power Delivery, CurlyCable is suitable for charging many USB-C devices, including phones, tablets, cameras, headphones, and compatible laptops. It delivers reliable everyday power in a compact form.

Transfers data at up to 480 Mbps
CurlyCable supports USB 2.0 data transfer speeds up to 480 Mbps, making it useful for syncing photos, files, and other data between compatible USB-C devices.

Soft silicone finish with reinforced construction
The supple matte silicone outer coating gives the cable a premium feel with added flexibility and grip. Inside, a reinforced copper core supports stable power delivery, while molded strain relief at both ends helps reduce wear from daily use.
