Süti Frosted Clear PhoneBack for iPhone 18 Pro - Black Sea Salt

Suti PhoneBack

Suti PhoneBack is designed for iPhone users who want protection without changing the feel of their phone. Ultra thin, lightweight and fully MagSafe compatible, it protects the back and camera area while keeping the clean, natural iPhone experience intact.

- Ultra thin no case feel
- Strong MagSafe connection with PerfectLock magnets
- No adhesives and easy to swap
- Camera and back protection with added grip
- Premium materials for different styles and textures

Ultra thin no case feel

PhoneBack is made to feel as close as possible to using your iPhone without a case. With a slim profile of just 2.3 to 4 mm and a weight of only 44 to 54 g, it adds protection without unnecessary bulk. The result is a clean fit that feels natural in the hand and slides easily into your pocket.

Strong MagSafe connection with PerfectLock magnets

Designed for MagSafe, PhoneBack uses Suti's PerfectLock magnet system with an advanced neodymium magnet array. This gives a secure and reliable hold for MagSafe accessories while remaining fully compatible with wireless charging.

No adhesives and easy to swap

PhoneBack attaches without adhesives, so there is no residue and no permanent attachment to your iPhone. You can remove it cleanly, change styles when you want, and keep your phone looking fresh without compromise.

Camera and back protection with added grip

PhoneBack helps protect the camera area and shields the back of your iPhone from everyday scratches. The added grip gives more confidence during daily use while still preserving the slim, clean feel of the device.

Premium materials for different styles and textures

Choose from a range of carefully selected materials, each designed to offer a distinct look and feel. Silicone provides the strongest grip and a durable waterproof finish. NanoLeather offers a smooth vegan leather texture. NanoSuede gives a soft, plush feel with stain resistance and waterproof properties. Walnut Wood uses a micro thin natural veneer that develops character over time. Clear keeps the original iPhone look visible, while Carbon Fiber offers the lightest feel with strong durability and a smooth texture.
