- 4096 Levels of Pressure Sensitivity

Art Meets Technology

The Clarity Active Stylus is packed with features to support your artistic vision. With 4096 levels of pressure sensitivity, tilt functionality, a built-in digital eraser, and a configurable quick-action button, it delivers an intuitive and precise drawing experience.

Flip to Erase

Correct mistakes effortlessly with the tail eraser, leaving the quick-action button free for other customizable shortcuts.

Designed for Clarity Touch

When paired with a Clarity Touch monitor, the stylus requires no tedious pairing process—just pick it up and start creating. Compatible with both Mac and Windows, the stylus magnetically attaches to the Clarity Touch's bezel for convenient storage when not in use.

No Batteries Needed

Say goodbye to disposable batteries! The stylus features a USB-C rechargeable battery that lasts over 100 hours on a single charge, ensuring uninterrupted creativity.

Includes Replaceable Pen Tip

Engineered to deliver smooth, gliding motion even after thousands of uses, the stylus comes with a replacement tip for added durability.

Also Works with Microsoft Surface™

Built with compatibility in mind, the Clarity Active Stylus supports the Microsoft Pen Protocol (MPP) 2.0, making it compatible with most Microsoft Surface™ devices and many others. However, note that tilt functionality may not be supported on earlier Surface models or some MPP devices.
