SATECHI

Satechi OntheGo™ Foldable Stand Hub - Space Black

Turn any USB-C device into a portable workstation — no adapter bag required. The Satechi OntheGo™ Foldable Stand Hub combines an adjustable stand with a full connectivity hub in one fold-flat design: 4K HDMI output, 100W pass-through charging, 10Gbps data ports, and UHS-II card readers up to 312 MB/s. It replaces your stand, your hub, and your card reader — then folds to under an inch and slides into a laptop sleeve.

- Foldable stand with reinforced hinge and protective padding
- 4K HDMI output up to 60Hz for an external display
- USB-C Power Delivery pass-through charging up to 100W
- High-speed USB-A and USB-C data ports up to 10 Gbps
- UHS-II SD and microSD card readers (up to 312 MB/s) plus 3.5mm audio jack
- Cross-platform: iPads, USB-C laptops, phones, and Samsung DeX

Foldable stand with reinforced hinge and protective padding
Unfolds in seconds to hold your device at a comfortable angle for typing, video calls, or sketching. Built-in padding protects against scratches, and the reinforced hinge is tested for thousands of folds — built for daily use, not just occasional travel.

4K HDMI output up to 60Hz for an external display
Connect directly to a monitor or TV to mirror or extend your workspace. Sharp enough for editing, presenting, or streaming in full 4K — through a single USB-C connection.

USB-C Power Delivery pass-through charging up to 100W
Keep your device charged while using every other port. No more choosing between connectivity and battery life — plug in your charger through the dedicated PD port and stay productive through long sessions. Delivers up to 85W to your host device while the hub operates.

High-speed USB-A and USB-C data ports up to 10 Gbps
Move large files, connect external drives, or plug in peripherals. Dual data ports give you flexibility for both modern USB-C and legacy USB-A accessories without extra adapters.

UHS-II SD and microSD card readers (up to 312 MB/s) plus 3.5mm audio jack
Go from camera to edit without a separate card reader. Import RAW photos and 4K footage at speeds up to 312 MB/s, and connect headphones or a headset through the 3.5mm jack for calls and playback.

Cross-platform: iPads, USB-C laptops, phones, and Samsung DeX
Optimized for iPad Pro, iPad Air, and iPad mini (2021 and later) — including the new iPad Air M4 (2026). Also works with USB-C laptops, tablets, smartphones, and gaming consoles. Paired with a compatible Samsung phone, it enables DeX mode for a full desktop experience on an external display.

Design details
Integrated USB-C host cable stores in a protective slot on the underside when not in use — nothing to lose, nothing to untangle. Folds flat to under an inch. Space Black aluminum finish.

Package includes:

- Satechi OntheGo™ Foldable Stand Hub with integrated USB-C host cable — Space Black
- Quick Starter Guide

Product specifications:

- Brand: Satechi
- Model: ST-GOTGFC
- Total ports: 7-in-1
- Connection to host: integrated 17 cm USB-C cable with storage slot
- Power: bus powered
- HDMI: 4K up to 60Hz (HDMI 2.0)
- USB-C data: up to 10 Gbps
- USB-A data: up to 10 Gbps
- USB-C Power Delivery: up to 100W input / up to 85W output to host device
- SD: SD 4.0 UHS-II up to 312 MB/s
- microSD: SD 4.0 UHS-II up to 312 MB/s
- Audio: 3.5mm input/output
- Compatibility: USB-C iPads (2021+), including iPad Pro M5/M4, iPad Air M4/M3/M2, iPad mini 7 (2024) and iPad mini 6 (2021),USB-C laptops, tablets, smartphones, gaming consoles, Samsung DeX-supported devices
- Requirements: host device must support DisplayPort Alt Mode and USB-C Power Delivery
