Five stand positions for work and downtime
Fold the Origami cover to find the right position for what you're doing. Use portrait mode for reading and video calls, landscape mode for watching videos, or the ergonomic low-angle position for typing, gaming and drawing. Two additional landscape positions provide a wider base for soft surfaces or help minimise contact with messy surfaces when travelling.

Drop protection up to 1.1 metres
A flexible, shock-absorbing TPU surround works with internal air pockets to help protect your iPad from everyday knocks and drops of up to 1.1 metres. Full edge protection adds reassurance without the bulk of a heavy-duty case.

Slim design with a clear back and soft lining
The lightweight, clear polycarbonate back keeps your iPad visible and leaves room to personalise its look. A soft PU front cover with a genuine microfibre lining helps protect the screen from dirt and spills when closed.

Compatible with Apple Pencil (USB-C)
Designed for use with Apple Pencil (USB-C), the case includes a discreet groove along the side to accommodate your Pencil while keeping the case's profile slim.

Auto sleep and wake to help extend battery life
Open the cover to wake your iPad and close it to put it to sleep. This automatic function helps reduce unnecessary battery use and can extend battery life by up to 20% between charges.
