- 5-in-1 Origami folding stand for ultimate versatility
- Slim, lightweight protection with soft-touch finish
- Premium microfiber lining for added care and comfort
- Auto Sleep/Wake function to help extend battery life

Designed for iPad Pro 10.5-inch and iPad Air 10.5-inch
The Pipetto Origami Case is precisely engineered to fit the iPad Pro 10.5-inch (released June 2017) and iPad Air 10.5-inch (released March 2019), both featuring a 26.7 cm display. The form-fitting shell hugs the contours of your iPad, while precise cut-outs provide full access to both cameras, the charging port and volume buttons. You get complete protection without losing any of the iPad functions you rely on every day.

5-in-1 Origami folding stand for ultimate versatility
The iconic Origami folding cover is what sets this case apart. With a simple series of folds, the front cover transforms into five different stand positions. You get two classic positions for comfortable typing and easy viewing, two extra-wide and stable bases that are ideal for soft surfaces like beds or sofas and for tray tables when travelling, plus an upright portrait position that is perfect for FaceTime, video calls or reading. Whatever you are doing, there is a stand position that makes it easier.

Slim, lightweight protection with soft-touch finish
Despite its robust protection, the Origami Case remains slim and lightweight, adding minimal bulk to your iPad. The durable polycarbonate shell is finished in a soft-touch coating that feels velvety in the hand but is tough enough for daily use in bags, briefcases or backpacks. It strikes the ideal balance between stylish minimal design and reliable protection for both the front and back of your device.

Premium microfiber lining for added care and comfort
Inside, the cover is lined with a luxurious dove grey microfiber that helps protect your screen from scratches, dust and smudges when the case is closed. The soft lining cushions the glass surface, keeping it cleaner and clearer for longer. It also adds a refined, premium feel every time you open and close your iPad.

Auto Sleep/Wake function to help extend battery life
The smart cover is designed to work seamlessly with the iPad Sleep/Wake function. Close the cover and your iPad automatically goes to sleep, conserving power when you are on the move. Open it and your iPad instantly wakes up, ready to use. Over time, this intelligent feature can help extend your battery life by up to 20 percent, so you can enjoy more time browsing, working or watching without needing to recharge as often.
