

Pipetto Origami Case for iPad Pro 12.9" (2018) – Multi-angle protective folio case for iPad Pro 12.9-inch 3rd gen transforms your iPad into a versatile, fully protected work and entertainment device. With multiple stable viewing angles, a slim premium finish and smart sleep-wake functionality, it keeps your iPad Pro safe, stylish and always ready to use.

- 5-in-1 multi-angle Origami stand design
- Slim, strong and protective soft-touch shell
- Smart cover with automatic sleep-wake function
- Full access to cameras, buttons and USB-C port
- Perfect for typing, viewing, calls and travel

5-in-1 multi-angle Origami stand design

The signature Origami folding cover gives you five different viewing positions in a single, slim case. Choose from two angles optimised for typing and watching content, two wide-base positions that stay stable on soft surfaces or tray tables, and a dedicated portrait position that is ideal for FaceTime and video calls. Whether you are working, streaming or chatting, there is always a secure angle that suits what you are doing.

Slim, strong and protective soft-touch shell

A soft-touch PU outer shell gives a premium, velvety feel while providing the strength needed for everyday protection. The case hugs the contours of your iPad Pro 12.9-inch 3rd gen, helping to shield it from scratches, light knocks and wear in your bag. Inside, the soft microfibre lining cushions the screen, reducing the risk of scuffs when the cover is closed, so your display stays clearer for longer.

Smart cover with automatic sleep-wake function

The integrated smart cover works seamlessly with your iPad Pro's sleep-wake function. Close the cover to put your iPad to sleep and open it to wake instantly, saving time and extending battery life by up to 20 percent. You get an intuitive, paper-notebook-style experience that feels natural, while your iPad quietly conserves power in the background.

Full access to cameras, buttons and USB-C port

The case is precision designed for the iPad Pro 12.9-inch 3rd gen, with cutouts and contours that keep every feature easy to reach. You retain full access to both front and rear cameras for photos, scanning and video calls. Volume controls respond easily through the case, and the USB-C charging port is left fully open, so you can plug in chargers and accessories without removing the case.

Perfect for typing, viewing, calls and travel

From desk to sofa to airplane tray table, the Origami Case is built for real life. The low-angle stand supports comfortable typing and sketching sessions, while the higher viewing angles are made for watching films or presenting work. The two wide-base positions give extra stability on uneven or soft surfaces, and the portrait mode keeps your iPad upright for hands-free video calls. Slim and lightweight, it adds protection without bulk, making it ideal for commuting, travelling or daily use.

Package includes
