# Pipetto iPad Air 4 Case 5-in-1 Origami Stand - Navy blue

Pipetto iPad Air 4 Origami 5-in-1 Stand Features TPU Protective Case – 5-position folding case for iPad Air 4 (2020) combines stylish design with serious everyday protection. With its unique Origami folding cover, co-moulded shock-absorbing shell and smart features that work seamlessly with your iPad, it is built to protect, enhance and simplify how you use your device all day long.

- Versatile 5-in-1 Origami stand for every viewing angle
- Co-moulded TPU and clear polycarbonate protection
- Designed exclusively for iPad Air 4 (2020) with Apple Pencil 2 support
- Shock-absorbing edge and raised bezel for screen protection
- Battery-saving smart cover with lifetime warranty

**Versatile 5-in-1 Origami stand for every viewing angle**
The signature Origami folding cover gives you five practical stand positions, so your iPad can adapt to whatever you are doing. Use the two classic positions for comfortable typing or hands-free viewing, just like Apple's own cover. Fold it again to create two extra wide-base positions that stay stable on soft surfaces such as beds, sofas or plane tray tables. Switch to the portrait stand when you need the perfect angle for FaceTime, video calls or reading. With so many options built into one slim cover, you get maximum flexibility without carrying extra stands.

**Co-moulded TPU and clear polycarbonate protection**
This case is co-moulded from a shock-absorbing TPU bumper and a tough, clear polycarbonate back, giving you a strong yet lightweight protective shell. The transparent back lets you show off the design and colour of your iPad Air 4 while keeping it safe from scratches and everyday wear. The soft PU front cover feels premium to the touch and is easy to wipe clean, so your case looks as good as your device. Together, these materials create a durable, long-lasting case that is ready for daily use at home, in the office or on the go.

**Designed exclusively for iPad Air 4 (2020) with Apple Pencil 2 support**
Pipetto has designed this Origami case to fit the iPad Air 4 (2020) 27.7 cm model precisely, supporting model numbers A2316 and A2072. The cut-outs and button covers align perfectly with both cameras, the volume controls, Touch ID button and the USB-C charging port, ensuring full functionality without removing the case. It is also compatible with Apple Pencil 2 sync and charge, so you can magnetically attach and power your Apple Pencil on the side of your iPad, with no compromise in protection or usability.

**Shock-absorbing edge and raised bezel for screen protection**
A robust TPU bumper surrounds the edges of your iPad to help absorb shocks from bumps and minor drops. The edges are slightly raised above the screen, so when you place your iPad face down, the display is lifted away from the surface to help protect it from scratches and contact damage. This all-round edge and corner protection is designed to keep your iPad looking new for longer, even with everyday use in bags, backpacks and busy environments.

**Battery-saving smart cover with lifetime warranty**
The smart front cover works seamlessly with the iPad's sleep-wake function to help extend your battery life. Close the cover to automatically put your iPad into sleep mode, then open it to wake instantly and get back to work or play. Over time, this simple feature can help extend your battery life by up to 20 percent. Backing up the thoughtful design is Pipetto's lifetime warranty. If you encounter any manufacturing or quality-related issues with the case during the lifetime of your device, Pipetto will replace it under a no-quibble warranty, giving you long-term peace of mind.

**Package includes**
