

Pipetto Origami Shield Durable iPad Air 10.5" Case combines rugged military-grade protection with the versatility of a 5-in-1 folding smart cover. Designed specifically for the iPad Air 10.5-inch (2019), it keeps your device safe from drops while giving you multiple stand positions for typing, viewing, video calls and more – all in a slim, stylish design that shows off your iPad, not hides it.

- Certified military-grade protection (MIL-STD-810G)
- 5-in-1 origami folding stand for ultimate versatility
- Transparent shock-absorbing back to showcase your iPad
- Smart cover with auto sleep-wake for extended battery life
- Perfect fit for iPad Air 10.5-inch (2019) with full access to all features

Certified military-grade protection (MIL-STD-810G)

The Origami Shield is independently certified to Military Standard MIL-STD-810G, giving you serious reassurance against drops and bumps. Each case has been drop tested 26 times with an actual iPad inside, from over 1.2 metres onto a hard surface. The durable TPU bumper absorbs impact while the robust construction keeps corners and edges protected, so your iPad Air stays safe in everyday use, commuting or classroom and office environments.

5-in-1 origami folding stand for ultimate versatility

The signature origami folding smart cover gives you five different stand positions in one slim, lightweight case. Use the ergonomic typing angle for comfortable emails and note-taking, or switch to the classic upright viewing position for watching films. A wide, stable base option is ideal for tray tables, desks or other unstable surfaces, while the low wide base is perfect for using your iPad in bed or on the sofa. There is also a portrait stand position designed for FaceTime and video calls, so you always have the right angle without extra accessories.

Transparent shock-absorbing back to showcase your iPad

The back of the Origami Shield is made from a shock-absorbent TPU frame combined with a clear PET window. This fully protects the back and sides of your iPad while keeping it visible. It is ideal if you have engraving, asset tags, school or business IDs on the back of your device, as they remain easy to see without sacrificing protection. The raised edges and snug fit help defend against scratches, scuffs and daily wear.

Smart cover with auto sleep-wake for extended battery life

The front cover is crafted from premium PU with the same touch and feel as Apple's Smart Cover, giving you a smooth, high-quality finish. Integrated magnets work with the iPad's sleep-wake function, automatically putting your device to sleep when the cover is closed and waking it when opened. This convenient feature can help extend your battery life by up to 20%, while also protecting the display from dust and scratches when not in use.

Perfect fit for iPad Air 10.5-inch (2019) with full access to all features

This Origami Shield is precisely designed for the iPad Air 10.5-inch (2019), ensuring a secure fit that feels tailored, not generic. Cut-outs and responsive button covers give you full access to the camera, speakers, volume controls and charging port without needing to remove the case. It offers robust, everyday protection while maintaining the slim profile and functionality that make the iPad Air so enjoyable to use.

Package includes

- Pipetto Origami Shield Durable iPad Air 10.5" Case - Red
