ALOGIC Elements PRO USB-A to Lightning cable - Black

Enjoy fast, reliable charging and data transfer every day with the ALOGIC Elements PRO USB-A to Lightning cable. Built to handle the constant plug-ins, bends and twists of busy households and offices, this 1 m cable combines strength, flexibility and certified performance, making it the perfect everyday cable for your Apple devices.

- Fast charging and reliable data transfer
- Double-braided, ultra-durable construction
- Highly flexible and bend-tested to 30,000+ bends
- Robust, slimline connector design for tight spaces
- Certified performance with 2-year warranty

Fast charging and reliable data transfer
The Elements PRO USB-A to Lightning cable is designed to deliver the fast charging and smooth data transfer you expect every time you plug in. With support for data rates up to 480 Mbps, you can quickly sync photos, videos and files while powering your device. Whether you are at home, in the office or on the move, this cable ensures your Apple devices stay charged and ready when you need them.

Double-braided, ultra-durable construction
Built strong for daily use, the Elements PRO features a tough double-braided outer sleeve that protects the internal wiring against constant wear and tear. This premium braiding significantly improves resistance to fraying and damage caused by frequent handling, making it ideal for people who rely on their cables throughout the day. Its reinforced insulation provides extra protection and long-term reliability, so you can charge with confidence.

Highly flexible and bend-tested to 30,000+ bends
Despite its strength, the Elements PRO is designed to be exceptionally flexible. The reinforced braiding and carefully engineered internal structure allow the cable to bend, twist and fold without compromising performance. It has been tested to withstand more than 30,000 bends, so you can wrap it, coil it or pack it tightly in your bag or pocket without worrying about early failure.

Robust, slimline connector design for tight spaces
The cable's connectors are housed in a robust yet slim and bendable shell, making it easy to plug into devices in confined or awkward spaces. Whether your power points are behind furniture or your devices sit close to walls or other equipment, the Elements PRO's connector design helps you reach ports that bulkier connectors cannot. This combination of strength and slimness makes it perfect for both home and office environments.

Certified performance with 2-year warranty
Every cable in the ALOGIC Elements PRO range is certified for dependable performance and safety. The cable is engineered to maintain its charging and data transfer capabilities over time, even when used heavily every day. To back this up, ALOGIC provides a 2-year warranty, giving you added peace of mind that your cable is built to last and ready for long-term everyday use.

Package includes

- 1 x ALOGIC Elements PRO USB-A to Lightning cable, 1 m - Black

Product specifications

- Brand: ALOGIC
- Product name: Elements PRO USB-A to Lightning cable
- Cable length: 1 metre
- Input connector: USB-A (USB 2.0)
- Output connector: Lightning
- Data rate: Up to 480 Mbps
- Colour: Black
- Cable materials: TPE with fabric double-braided sleeving
- Bend rating: Tested to withstand more than 30,000 bends
- Compliance: CE, FCC
- Compatibility: USB-A chargers and Lightning-enabled Apple devices
- Warranty: 2 years
