

Intelino Station & Tunnel Kit

Transform your Intelino city into an exciting landscape of stations and tunnels with this innovative kit. Designed to seamlessly integrate with Intelino support towers, these eco-friendly and durable inserts will take your child's play experience to new heights of imagination and learning.

- Easy assembly and modular design
- Durable and eco-friendly PP plastic material
- Compatible with Intelino support towers
- Creates exciting stations and tunnels
- Enhances creativity and learning

Easy Assembly and Modular Design

The Intelino Station & Tunnel Kit features a foldable, modular design that's incredibly easy to assemble. Children can quickly set up their stations and tunnels, allowing for more time spent playing and learning. The modular nature of the kit also encourages experimentation and creativity, as kids can rearrange their city layout in countless ways.

Durable and Eco-Friendly PP Plastic Material

We've crafted these inserts from high-quality, eco-friendly PP plastic sheet material. This choice ensures that your child's play environment is not only safe but also durable enough to withstand hours of imaginative play. The sturdy construction means these inserts will be a long-lasting addition to your Intelino city.

Compatible with Intelino Support Towers

Designed to work seamlessly with Intelino support towers (sold separately), this kit allows you to create a multi-level play experience. By combining the inserts with the towers, children can build intricate cityscapes with elevated stations and underground tunnels, adding depth and complexity to their Intelino world.

Creates Exciting Stations and Tunnels

With this kit, your child can bring their Intelino city to life with vibrant yellow stations and cool blue tunnels. These additions create focal points in the play area, encouraging storytelling and scenario-based play. Whether it's a busy train station or a secret underground passage, the possibilities for adventure are endless.

Enhances Creativity and Learning

By incorporating stations and tunnels into their Intelino city, children engage in creative problem-solving and spatial reasoning. They'll learn about city planning, transportation systems, and even basic engineering concepts as they construct and reconstruct their miniature world. This kit is an excellent tool for fostering STEM skills in a fun, hands-on way.

Package includes:

- 2 foldable yellow station inserts
- 2 foldable blue tunnel inserts

Product specifications:

- Material: PP plastic sheet
- Color: Yellow (stations), Blue (tunnels)
- Compatible with: Intelino support towers (sold separately)
- Assembly: Easy, foldable design
- Eco-friendly: Yes
