

Osmo Super Studio Frozen 2

Osmo Super Studio Frozen 2 is a drawing game for kids that turns an iPad into a guided art studio. Children learn to draw step by step, get real-time help as they sketch, and see their drawings appear on screen in a Frozen 2 themed experience that builds skills and confidence.

- Guided Frozen 2 drawing lessons for kids
- Builds core drawing skills and creative confidence
- Instant on-screen feedback as your child draws
- Watch drawings come to life in the app
- Works with Osmo Base and Reflector from a Starter Kit (not included)

Guided Frozen 2 drawing lessons for kids

Your child follows clear, expert-led sketch lessons inspired by Frozen 2. The experience is designed to be approachable for young learners, with guidance that helps them progress from simple shapes to finished drawings.

Builds core drawing skills and creative confidence

Super Studio supports visual thinking, experimentation, and drawing basics. Kids practice observing, refining lines and shapes, and developing confidence through repeatable lessons that encourage steady improvement.

Instant on-screen feedback as your child draws

As your child draws on the included sketchpad, the app responds with helpful guidance and feedback. This makes it easier to understand what to adjust next, without needing constant adult assistance.

Watch drawings come to life in the app

Finished drawings are brought onto the screen where kids can see their artwork become part of an animated experience. It's a rewarding way to connect the act of drawing with storytelling and motion.

Works with Osmo Base and Reflector from a Starter Kit (not included)

This game requires the Osmo Base and Reflector that come with an Osmo Starter Kit. Please note that no iPad base is included with this product.

Package includes

- Super Studio Game App
- Super Sketchpad
- Super Studio Marker
- Super Sweeper
