Play Shifu Orboot: Planet Mars - AR Globe - Space Travel in AR

Discover the red planet like never before with the Shifu Orboot: Planet Mars - AR Globe - Space Travel in AR. Brought to you by PlayShifu, this first-ever AR educational globe takes your kids on an interactive, interplanetary journey they won't forget. Great for homeschoolers, classrooms, or for a fun and educational time at home, Shifu Orboot guides kids through mesmerising music, intriguing voice interactions, and engaging quizzes. It's more than just a globe - it's a ticket to Mars!

- Multilingual: Available in 8 languages, including Swedish, Norwegian, and Danish.
- Mars Exploration: Traverse Mars with numerous rovers and orbiters in AR.
- Discoveries and Missions: Learn about significant missions and findings on the Red Planet.
- Education in Fun: Unique ways to study the similarities and differences between Earth and Mars.
- Age-appropriate: Perfect for children aged 7 and above and nurtures key skills in space science, physics, and general knowledge.

Multilingual Option
The Orboot app is designed not only with engaging content but also with linguistic diversity in mind. It's available in 8 languages, including Swedish, Norwegian, and Danish, so your child can explore beyond language boundaries.

Mars Exploration
What's Mars like? Orboot transports your kids right to the Red Planet. Traverse the martian landscape with rovers and orbiters through augmented reality (AR), letting them experience space travel without leaving home.

Discoveries and Missions
Shifu Orboot is more than just fun. It imparts knowledge about significant missions and discoveries on Mars, giving kids a comprehensive understanding of our celestial neighbour.

Education in Fun
Shifu Orboot makes learning exciting. It allows your children to study the similarities and differences between Earth and Mars, making them appreciate their home planet even as they set their sights on the stars.

Age-appropriate
Perfect for curious minds aged 7 and above. Shifu Orboot presents complex lessons in a fun and age-appropriate way, fostering key skills in space science, physics, and general knowledge.

Supported Nordic Languages: Swedish, Danish and Norwegian.
Other languages supported: English, Japanese, French, German, Spanish, Polish, Korean, Russian, Ukrainian.
