Play Shifu Tacto: Coding

PlayShifu presents Shifu Tacto: Coding - an engaging tactile game that teaches coding. Specially designed for children aged 4 and above by coder-parents, this educational toy transforms your tablet into a dynamic game board where learning and fun intertwine. The game comes bundled with a free Tacto application that pumps up the fun quotient with 200+ levels and three games, available in 8 languages including Swedish, Norwegian, and Danish.

- Engrossing single-player coding toy with 200+ levels and three games
- Designed by coder-parents for children aged 4+
- Enhances problem-solving and logical reasoning skills
- Hands-on visual learning of coding basics like input-output, loops, sequences, and selections
- It comes with free Tacto application and supports 8 languages

Single-Player Coding Toy
Delve into an exciting learning journey with Shifu Tacto: Coding, a single-player toy that offers more than 200 levels across three gripping games. Designed to engage kids for hours, this toy is sure to keep your little one's curiosity piqued.

Coder-Parents Design
Tapping into their experience and understanding of children, our coder-parents have designed the Shifu Tacto: Coding. This toy ensures kids aged 4+ can easily grasp coding elements while having a joyous time.

Enhances Problem-Solving and Logical Reasoning Skills
As kids manoeuvre their way through each level, their problem-solving and logical reasoning skills get honed. Adventure-fueled gaming sessions serve as brain workouts, invigorating their analytical thinking capabilities.

Hands-on Visual Learning
The toy advocates learning by doing, rendering abstract coding concepts visually appealing. By letting children physically interact with coding parameters like loops, sequences, and input-output, their comprehension and retention rates are assuredly higher.

Free Tacto Application
The toy comes with a free Tacto application that adds layer of delight and learning to each game session. Available in 8 languages, including Swedish, Norwegian, and Danish. The app ensures kids across different linguistic backgrounds can enjoy the game to the fullest.

Supported Nordic Languages: Swedish, Danish and Norwegian.
Other languages supported: English, Japanese, German, French, Spanish, Polish
