Play Shifu Tacto: Laser

PlayShifu presents a fascinating, science-backed game that boosts problem-solving skills and creates a fun, educational environment for children. Presenting, the Shifu Tacto: Laser - a game that captivates the psyche of youngsters with thrilling mysteries, challenging their creative boundaries by having them illuminate clues to solve them!

- Available in 8 languages
- Single-player game suitable for ages 5+
- Brain-teasing logic games
- Science exploration of light and its components
- Enhances problem-solving skills and logical reasoning

Available in 8 languages
What's more globally inclusive than a game that caters to various nationalities, offering its services in 8 different languages? The Shifu Tacto: Laser includes options for Swedish, Norwegian, and Danish, among other languages. This feature makes it accessible and enjoyable to children from diverse backgrounds.

Single-player game suitable for ages 5+
Perfect for kids, our Shifu Tacto: Laser game engages children as young as five years old in exciting mysteries. It provides an interactive platform for kids, activating their curiosity and enhancing their intellectual abilities.

Brain-teasing logic games
The Shifu Tacto: Laser offers a series of brain-teasing games, challenging children through various difficulty levels. From easy to tough, these games are designed to push the boundaries of your child's mental faculty, stimulating their ability to think and solve complicated scenarios.

Science exploration of light and its components
Combining fun and learning, the game delves into the complex world of light and its seven integral components. By using the flashlight and mirror figurines, kids get to learn about the properties of light, how to split it into seven colours using a prism, and how to use these principles to solve puzzles.

Enhances problem-solving skills and logical reasoning
Increase your child's problem-solving skills and logical reasoning with creative play. Through brain-teasing games, Shifu Tacto: Laser builds your child's intellectual abilities, teaching them to solve puzzles using basic principles of light and reflection.

Supported Nordic Languages: Swedish, Danish and Norwegian.
Other languages supported: English, German, French, Spanish, Polish.

How it works

- Fix the two anti-slip frames on the sides of your tablet.
- Select a Laser game on the Tacto app to begin.
- Strategize and make your move using the figurines on the screen!

Package Includes
In the box, you will find Flashlight6, Mirror, Prism, Laser and 2 Frames, all tools needed to engage your kid in an adventure of learning and fun.
