Paper-like resistance for neater handwriting and precise sketches
Paperlike™ 3 adds controlled resistance to slippery glass with its refined Nanodots™ surface. It helps you write more neatly and sketch with greater control, with a natural pen-on-paper feel that preserves clarity and comfort.

Responsive Apple Pencil performance
Engineered to stay below Apple's maximum screen protector thickness limit, Paperlike™ 3 keeps latency low and input pixel-precise for responsive writing, illustration and annotation.

Helps reduce Apple Pencil tip wear and protects your screen
Paperlike™ 3 balances surface friction to help minimise Apple Pencil tip wear. Its durable PET base and specialised surface also protect your iPad display from everyday scratches, scuffs and fine marks.

Easy, clean, dust-free installation
The Butterfly™ Application System combines a full-surface dust catcher, Clean Room Effect, precise alignment tools, a reusable Helper Tool and an interactive on-screen guide to help you achieve a clean, dust-free finish.

The original paper-like screen protector, refined for creators
This third generation of the original paper-like screen protector draws on years of testing and feedback from creators. Engineered in Germany and manufactured in Switzerland, Paperlike™ 3 is trusted by over a million artists, students and professionals worldwide.

Butterfly™ Application System
A full-surface dust catcher and Clean Room Effect help keep dust out, while alignment tools and an on-screen guide help you position the protector accurately.
