Slim protection against drops up to 1.1 metres
A flexible, shock absorbing TPU shell with internal air pockets helps protect your iPad mini against everyday knocks and drops from up to 1.1 metres. At just 130 g, the case is easy to carry without weighing down your bag.

Five stand positions for everyday flexibility
The folding Origami cover gives you five practical ways to position your iPad. Use portrait mode for reading and video calls, or landscape viewing mode for films and browsing. The soft surface position provides comfortable viewing in bed or on the sofa, while the keep clean position raises your iPad away from messy surfaces. An ergonomic, low angle position supports typing, gaming, sketching and taking notes.

Soft screen lining and a clear back
The soft touch PU cover has a premium microfibre lining that helps protect your screen from scratches, dirt and everyday wear. A clear polycarbonate back keeps the design lightweight and lets you personalise the look of your iPad, complemented by the Burgundy cover.

Convenient Apple Pencil magnetic attachment
An integrated side groove allows Apple Pencil Pro and Apple Pencil with USB C to attach magnetically to your iPad mini. Apple Pencil Pro also supports wireless pairing and charging while attached. The open design keeps your Pencil accessible, rather than enclosing it in a storage compartment.

Automatic sleep and wake to help preserve battery life
The cover automatically wakes your iPad when opened and puts it to sleep when closed, helping preserve battery life between charges. The case also comes with Pipetto’s Lifetime Warranty.
