Pipetto Origami No1 Original Case for iPad Air 11 (M4/M3/M2) / iPad Air 10.9 (2022/2020) - Luminous Blue

Protect your iPad without adding unnecessary bulk. The Pipetto Origami No1 Original Case combines a slim, shock-absorbent design with a versatile folding stand, premium materials and convenient Apple Pencil compatibility. Designed for selected iPad Air models, it keeps your iPad protected and comfortable to use throughout the day.

- Five stand positions for everyday flexibility
- Drop protection up to 1.1 metres
- Premium materials with a clear back
- Apple Pencil compatibility
- Auto sleep and wake to help extend battery life

Five stand positions for everyday flexibility
Fold the Origami cover into five positions to suit what you are doing. Use portrait mode for reading and video calls, landscape viewing for watching content, or the ergonomic flat position for typing, gaming and drawing. Two additional landscape positions provide a wider base for soft surfaces or help minimise contact with messy surfaces when travelling.

Drop protection up to 1.1 metres
A flexible, shock-absorbent TPU surround cushions everyday knocks and drops while protecting every edge. Internal air pockets provide additional impact protection, helping the case offer drop protection up to 1.1 metres without a bulky design.

Premium materials with a clear back
The soft vegan leather PU cover is paired with a genuine microfibre lining to help protect your screen. A clear polycarbonate back keeps the case lightweight while letting your iPad’s design show through. The Luminous Blue finish adds colour to a practical, slim design.

Apple Pencil compatibility
A discreet groove along the side accommodates your Apple Pencil, with support for syncing and charging through the case where supported by your iPad and Pencil combination. The case is compatible with Apple Pencil Pro, Apple Pencil 2 and Apple Pencil USB-C, so you can choose the Pencil supported by your iPad.

Auto sleep and wake to help extend battery life
The cover automatically wakes your iPad when opened and puts it to sleep when closed. This helps reduce unnecessary battery use and can extend the time between charges by up to 20%.
