Pipetto Origami No1 Original Case for iPad Air 13 (M4/M3/M2) - Lilac

Keep your iPad protected without adding unnecessary bulk. The Pipetto Origami No1 Original Case combines a slim, shock-absorbent design with a versatile folding cover, giving you five ways to position your iPad for reading, working and watching. A clear back, Apple Pencil compatibility and automatic sleep and wake functionality make everyday use more convenient.

- Five stand positions for everyday use
- Drop protection up to 1.1 metres
- Premium materials with a clear back
- Designed to work with your Apple Pencil
- Automatic sleep and wake to help extend battery life

Five stand positions for everyday use
Fold the Origami cover into the position that suits what you are doing. Use portrait mode for reading and video calls, landscape mode for watching, or the ergonomic low-angle position for typing, gaming and drawing. Two additional wide-base positions provide support on soft or unstable surfaces and help minimise cover contact with messy surfaces when travelling.

Drop protection up to 1.1 metres
A flexible, shock-absorbent TPU surround works with internal air pockets to protect your iPad against drops of up to 1.1 metres. Full edge protection helps cushion everyday knocks while keeping the case slim and easy to carry.

Premium materials with a clear back
The soft PU vegan leather cover has a genuine microfibre lining to help protect your screen against dirt and spills. A clear polycarbonate back keeps the design lightweight, lets your iPad show through and gives you room to personalise its appearance.

Designed to work with your Apple Pencil
A discreet groove along the side accommodates your Apple Pencil, with support for Apple Pencil Pro syncing and charging through the case. The case is compatible with both Apple Pencil Pro and Apple Pencil USB C, so you can keep using your preferred tool for notes, sketches and everyday tasks.

Automatic sleep and wake to help extend battery life
Open the cover to wake your iPad and close it to put it to sleep. This automatic function helps reduce unnecessary battery use and can provide up to 20% longer use between charges.
