Pipetto Origami Shield for iPad 10.2" 2019/2020 – Certified Military Standard with 5-in-1 Stand Function is a rugged, all-round protective case that keeps your iPad safe from drops while giving you five ultra-versatile stand positions. With military-standard protection, a clear back to show off your device, and an origami-style cover for typing, viewing and FaceTime, it's built for everyday life at home, at work or on the go.

- Certified military standard drop protection
- 5-in-1 Origami stand for ultimate versatility
- Shock-absorbent protection with clear back panel
- Precise fit with full access to all ports and features
- Smart cover with auto sleep-wake to save battery

Certified military standard drop protection

The Pipetto Origami Shield is certified Military Standard (MIL-STD-810G), giving your iPad serious protection when it matters most. The case has been independently drop tested 26 times from over 1.2 m onto a hard surface with a real iPad inside, so you can trust it to handle everyday knocks, bumps and accidental drops. The robust construction absorbs impact and helps keep your device safe at home, in the classroom, in the office or on the move.

5-in-1 Origami stand for ultimate versatility

Featuring the same innovative 5-in-1 folding design as the original Origami case, the Origami Shield offers five stand positions tailored to how you actually use your iPad. Enjoy an ergonomic typing position for emailing and note-taking, and an upright viewing position for watching films or browsing. Switch to an upright wide-base mode for extra stability on tray tables or wobbly surfaces, a low wide-base position for using your iPad comfortably in bed or on the sofa, or a portrait position that's perfect for FaceTime, video calls and reading. One case, five highly practical angles.

Shock-absorbent protection with clear back panel

The front cover is crafted from premium PU, giving you the same smooth touch and feel as Apple's Smart Cover, while the back is made from a shock-absorbent TPU shell with a clear PET window. This combination delivers rugged drop protection around the edges and corners while keeping the back of your iPad visible. It's ideal if you have engraving, personalisation, an ID label or asset tag you need to see at a glance, without sacrificing protection.

Precise fit with full access to all ports and features

Designed specifically for the iPad 10.2-inch (approximately 25.9 cm) 2019/2020 models, the Origami Shield wraps your device in a snug, secure fit. Accurate cut-outs ensure full access to cameras, volume buttons, speakers and charging ports, so you never need to remove the case to take a photo, adjust the sound or plug in your charger. The slim profile makes it practical to carry in a bag or backpack, while the raised edges add extra peace of mind for everyday use.

Smart cover with auto sleep-wake to save battery

The Origami Shield's magnetic smart cover works seamlessly with your iPad's auto sleep-wake function. Simply close the cover to put your iPad into sleep mode, then open it to wake instantly and pick up where you left off. By reducing unnecessary screen-on time, this feature can help extend your iPad's battery life by up to 20%, making it ideal for long days of work, study or travel.

Package includes

- Pipetto Origami Shield case for iPad 10.2" (approximately 25.9 cm) 2019/2020 - Navy Blue
