- Personal Growth and Development

Augmented Reality Education Globe

Redefine the way your child learns geography with Shifu Orboot. The first-ever AR educational globe was born via Kickstarter, making the exploration of our earth an interactive and engaging experience.

Immersive STEM Learning

STEM learning comes to life with Shifu Orboot. Providing a unique, hands-on learning experience, this product makes STEM exciting and fun. With interactive experiences that include visual storytelling, music, voice interactions, and in-app quizzes and challenges, your child will learn and develop a love for learning.

Multilingual Support

Language should never be a barrier in education. That's why the PlayShifu Orboot app is available in 8 different languages, including Swedish, Norwegian, and Danish. Multilingual support ensures your child's learning journey is uninterrupted, regardless of their language.

World Exploration

Travel the world right from the comfort of your home. The PlayShifu Orboot Earth allows your child to explore more than 400 wonders in 3D and learn over 1000 exciting facts about our world. Empower your child with knowledge and curiosity as they explore the diverse cultures, cuisines, monuments, animals, and more.

Personal Growth and Development

Shifu Orboot isn't just a learning tool; it's a tool for personal growth and development. The variety of interactive content available grows with your child. Educating them on key subjects like geography, environmental science, social science and more.

Supported Nordic Languages: Swedish, Danish and Norwegian.
