

Welcome to the future of interactive learning with PlayShifu's Plugo: Letters. This AR-powered gaming system is designed to stimulate your child's mind and nurture their curiosity. It not only helps children play and learn, but also aims to strengthen their foundation in the English language, grammar, and comprehension.

- 5 story-based games
- Over 250 challenges and puzzles
- Age-appropriate challenges
- Skill development
- STEM and STEAM education

5 story-based games

Our Plugo: Letters kit comes with 5 story-based games in the included app. Each game is designed to spark your child's imagination while building their language skills.

Over 250 challenges and puzzles

With over 250 challenges and puzzles, your child gets an endless source of fun and learning. These challenges are designed to spark an interest in learning in your child.

Age-appropriate challenges

The challenges and games in our kit are age-appropriate and increase in complexity as your child grows. From PreK all the way to Grade 5, your child won't outgrow this kit anytime soon.

Skill development

Plugo: Letters goes beyond spelling and grammar. It supports language development, comprehension, and storytelling skills, ensuring a well-rounded language education.

STEM and STEAM education

Incorporate science, technology, engineering, art, and mathematics (STEAM) into your child's learning routine. This AR-powered gaming system develops STEM skills, encouraging logical reasoning and creative thinking in your child.

Supports Nordic languages: Swedish, Danish, and Norwegian.

Product specifications

PlayShifu Plugo: Letters is suitable for children aged 4-10 years. It is compatible with all modern iOS and Android tablets. The included app contains age-appropriate games for a wide range of ages.

Included in the box

- 48 letter tiles
- 1 letter stand for play and storage
- Quick start guide
- 1 gamepad

"The physical-virtual play experience is not only great fun, but also highly educational for young children" - Forbes

"Smart in its simplicity - play in front of the camera with different toys that the game (app) recognizes." -

Mirror

What is STEM?

STEM stands for Science, Technology, Engineering, and Mathematics. It is an educational approach that integrates these four disciplines to provide hands-on, real-world learning experiences. STEAM is an expanded version that includes art alongside the STEM subjects.
