myFirst Sketch Clear 16 Drawing Board - Blue

Bring drawings to life with a reusable, illuminated acrylic board. Draw freely, trace favourite pictures or add creative details over photos, then light up your artwork with adjustable colours and effects. Wipe the panel clean whenever you are ready to start again.

- Draw, trace and create on a clear panel
- Light up your artwork with colour
- Adjust brightness with simple touch controls
- Create with rechargeable convenience
- Display finished drawings with the built-in stand

Draw, trace and create on a clear panel
The transparent acrylic panel gives you several ways to create. Draw freehand with fluorescent markers, place a picture beneath the board to trace it, or draw over a photo without marking the original. The reusable surface wipes clean, ready for your next idea.

Light up your artwork with colour
Edge-lit LEDs make fluorescent marker lines glow. Choose from eight static light colours or explore three dynamic modes: Jump, Breathing and Running. Change the lighting to suit your drawing or how you want to display it.

Adjust brightness with simple touch controls
Six brightness levels let you adjust the illumination to your surroundings. Touch controls make settings easy to change, while the key lock helps prevent accidental adjustments.

Create with rechargeable convenience
The built-in 2000 mAh battery provides approximately 10 to 15 hours of use. A battery percentage display lets you check the remaining charge at a glance. Recharge through the USB Type-C connection in approximately 2.5 to 3 hours.

Display finished drawings with the built-in stand
Keep your artwork on show using the integrated stand. The clear acrylic panel becomes an illuminated display, so you can enjoy each finished drawing before wiping it clean and creating something new.

Package includes

- myFirst Sketch Clear 16 drawing board with built-in stand - Blue

Product specifications

- Brand: myFirst
- Model: Sketch Clear 16
- Colour: Blue
- SKU: FS1603SA-BE01
- Materials: ABS base and acrylic panel
- Acrylic board dimensions: 350 × 230 mm
- Overall product dimensions: 350 × 85 × 250 mm
- Net weight: 417 g
- Lighting: Edge-lit LEDs with eight static colours
- Dynamic light modes: Jump, Breathing and Running
- Brightness: Six adjustable levels
- Controls: Touch controls with key lock
- Battery display: Remaining charge percentage
- Battery: Rechargeable 2000 mAh lithium-polymer
