Unlock the magic of music with PlayShifu's innovative product - Shifu Plugo: Tunes. This revolutionary AR-powered gaming system provides a fun-filled approach to teaching your child music, enhancing their creativity and persistence. The user-friendly gamepad and interchangeable gaming kits offer an immersive learning experience that will help your child master music notes, play popular songs, and compose their masterpieces.

- Immersive AR-Powered Gaming System
- Innovative Waterfall Technique
- Rich Content with 50+ Popular Songs
- Skill-Enhancing Gaming Experience
- Multilingual Support

Immersive AR-Powered Gaming System

Step into the future of interactive learning with the AR-powered gaming system. The Plugo: Tunes transforms your device into a dynamic learning tool, immersing your child in a virtual world of music and creativity.

Innovative Waterfall Technique

Not just any ordinary educational toy, Shifu Plugo: Tunes uses the innovative Waterfall Technique. This unique method introduces and reinforces music concepts in a manner that is easy to grasp, paving the way for a smooth transition to a real-world keyboard.

Rich Content with 50+ Popular Songs

Keep your child productively entertained with over 50 popular songs. Each composition offers a different level of challenge to captivate and hold your child's interest, making music practice a fun and enjoyable pastime.

Skill-Enhancing Gaming Experience

Beyond fun, the Plugo: Tunes triggers multiple cognitive improvement areas. As your child navigates through each game, they will develop engineering, analytical thinking, and creative design skills.

Multilingual Support

Let language not be a barrier to your child's music education. With support for eight languages, including Swedish, Norwegian, and Danish, the Plugo: Tunes caters to a vast learner array worldwide.

Supported Nordic Languages: Swedish, Danish and Norwegian.

Package Includes

- Keyboard (*The keyboard doesn't produce any sound. The music plays in the Plugo app on your device)
- 3 Musical Pops (Wind, String & Percussion)
- 1 Gamepad
- Quick Start Guide

"Skills: engineering, analytical thinking, creative design The physical-virtual play is not only a lot of fun but highly educational for youngsters" - Forbes

"Clever because of simple engineering, play in front of the camera with various toys that the game (app) recognises." - Mirror

What is STEM?

STEM stands for Science, Technology, Engineering, and Mathematics. It's an educational approach that integrates these four disciplines to provide practical, real-world learning experiences. STEAM is an expanded version that includes Arts along with the STEM subjects.
