- Magnetic tab keeps phone and wallet closed
- Holds bank cards and cash or receipts

Hooked on BookBook? Check out the next chapter

It's here. A fresh version of our legendary BookBook, **now compatible with Apple MagSafe Charger** and your favorite MagSafe accessories. BookBook for iPhone streamlines your everyday carry by combining a wallet and iPhone case into a little luxurious leather book. There's room for your ID, bank cards and cash. Your iPhone is securely and safely held in a magnetic leather shell so you can easily separate your wallet and phone for charging or times when you only need your iPhone. It's like getting two cases in one. Read on for more of the story.

MagSafe is now part of the BookBook story

Knowing the Apple MagSafe Charger is the fastest way to charge iPhone 12, we retooled BookBook's leather shell to be MagSafe compatible. When it's time to charge your iPhone, simply separate the magnetic shell from the wallet and attach it to your MagSafe Charger. You can also use the BookBook shell with MagSafe accessories, including car mounts, charging pads and desktop stands like **Forté**.

Your everyday carry in one sophisticated case

Your wallet and iPhone go pretty much everywhere you go. BookBook holds both in the form of a mini leather book. Your bank cards, ID and cash are conveniently held on one side, with iPhone on the other side. A camera cutout lets you easily snap photos and video. BookBook has a built-in viewing stand to FaceTime or view your favorite shows. If you think about it, BookBook for iPhone will become the storybook of your life.

No need to shell out money for a shell

At the gym and need your iPhone, but not your wallet? No problem. Held in place by powerful hidden magnets, the shell can be quickly removed - just pull it away from the wallet. And the beautiful leather-inlaid shell provides five-sided protection. It's like getting two cases for the price of one.

Part book. Part security blanket

Behind the vintage look of BookBook is the story of protecting modern technology. BookBook for vol. 2 has a 30 millimeter magnetic tab that keeps the case closed, protecting your phone and the contents of your wallet. Hardback book covers and a rigid spine protect your iPhone from scratches and impacts. The final chapter is stealthy security. BookBook disguises your iPhone as a vintage book, keeping your phone out of sight, even in plain sight.
