Ultra-thin protective leather cover
The lightweight TS SurfacePad for iPhone 6/6s has a credit-card-thin profile. Its leather cover helps protect your iPhone from everyday scratches and nicks, including those caused by keys in your pocket.

Built-in viewing stand
The SurfacePad cover flexes into a stand to support your iPhone for hands-free use. Watch movies, make FaceTime calls or take timed group photos without holding your phone.

Two card slots for everyday essentials
Two card slots inside the front cover let you carry essentials such as your ID and bank card. Keep your phone and essential cards together without carrying a separate wallet.

Reinforced perimeter stitching
Shaped to fit the contours of your iPhone, the SurfacePad features reinforced stitching around the edges for durability and a neatly finished look.

Slim, pocket-friendly design
The Twelve South SurfacePad keeps your iPhone slim enough to slide easily into your pocket, without a bulky cover or awkward closures. Its warm, soft napa leather offers a comfortable alternative to the feel of aluminium or hard plastic.
