Protective Ultra-Thin Leather Cover

The TS SurfacePad iPhone 6/6s cover is designed to uniquely protect your phone with a feather-light and credit card-thin structure. This luxury leather SurfacePad shields your iPhone from everyday hazards like the keys in your pocket or accidental scratches and nicks. This level of protection doesn't just safeguard but also enhances your iPhone.

Built-in Viewing Stand

Our SurfacePad cover is innovative and effortlessly flexes into a display mode. This integrated stand is perfect for hands-free use, like watching movies, FaceTiming with friends, or even taking timed group photos. Flex, sit back and enjoy.

Card Slots for Instant Minimal Wallet

The TS SurfacePad design features two card slots on the inside front cover. Use it as a minimal wallet, carrying only vital cards like your ID and bank card. With this, you can enjoy occasional nights out on the town worry-free, knowing all your essentials are in one place.

Reinforced Perimeter Stitching

Tailored aerodynamically to fit the contours of your iPhone, this SurfacePad comes with reinforced stitching around the perimeter for long-term durability and added style. This is not only impenetrable but also stylish, blending perfectly with your iPhone's aesthetics.

Slimness that Fits into Your Pocket

Despite its luxury and functionality, the Twelve South SurfacePad is slim enough to allow your iPhone to slide easily into your pocket. You don't have to deal with bulky covers or uncomfortable closures. Enjoy the comfort in your hand that a warm, soft napa leather offers against a slippery aluminium or a hard plastic case.
