

SurfacePad for iPhone X from Twelve South is an ultra-thin leather folio that wraps your iPhone X in premium protection without adding bulk. With built-in card slots, a hands-free stand and automatic wake and sleep functionality, it turns your everyday phone into a refined, minimalist wallet and viewing companion.

- Ultra-thin genuine leather cover for front and back protection
- Integrated card slots for your ID and bank card
- Built-in stand for hands-free viewing and FaceTime
- Automatic wake and sleep when opening and closing the cover
- Secure, residue-free adhesive attachment to your iPhone X

Ultra-thin genuine leather cover for front and back protection

SurfacePad for iPhone X is designed as a feather-light, credit-card-thin leather jacket that adheres directly to your iPhone. The slim folio wraps around both the front and back, protecting your screen and the glass back from everyday hazards like keys, countertops and bags, while keeping your iPhone X slim enough to slip easily into any pocket or purse. The genuine leather finish adds a touch of understated luxury you see and feel every time you pick up your phone.

Integrated card slots for your ID and bank card

Inside the front cover you will find two discreet, perfectly sized card slots. They are ideal for your ID, bank card or transit card, making it easy to travel light and leave your wallet at home. Combined with Apple Pay, these two slots are often all you need for your daily essentials, turning SurfacePad into a minimalist wallet and phone solution.

Built-in stand for hands-free viewing and FaceTime

Flex the back of SurfacePad and it instantly converts into a stable viewing stand. Prop your iPhone X up to watch videos, join FaceTime calls, browse the web or follow recipes, all completely hands free. The integrated stand function is carefully engineered to work with the slim design, so you get a convenient viewing angle without adding extra bulk or complicated mechanisms.

Automatic wake and sleep when opening and closing the cover

SurfacePad for iPhone X works seamlessly with your phone to save power and keep you moving quickly. Open the cover and your iPhone X wakes up instantly, ready for use. Close the cover and it puts your iPhone to sleep, helping conserve battery and protecting your screen at the same time. This smart folio behavior makes everyday use smoother and more efficient.

Secure, residue-free adhesive attachment to your iPhone X

Instead of using a bulky plastic shell, SurfacePad adheres directly to the back of your iPhone X using a special, secure micro-adhesive. It holds firmly in place during daily use, yet can be removed cleanly without leaving sticky residue or marks. This unique attachment method keeps the profile incredibly slim while still giving you confidence that your case is securely fitted.
