The integrated magnetic module aligns cleanly with compatible magnetic chargers and accessories, helping keep the connection steady during charging and daily use. Supports Qi2 wireless charging and works with Samsung Pay.

6 m drop protection with reinforced impact-dispersing design
The Civilian case is engineered to reduce shock transfer during impacts using a protective core and reinforced construction. Independently tested for drops up to 6 meters and built to meet 3X MIL-SPEC 810G-516.6 drop-test standards.

Slim profile with raised screen edge for everyday scratch protection
Designed to stay streamlined in your hand and pocket, the case adds protection without unnecessary bulk. A raised screen edge helps reduce the chance of scratches and contact damage when your phone is placed on flat surfaces.

Secure, anti-slip grip with oversized tactile buttons
A textured exterior improves handling and helps prevent slips. Oversized buttons are shaped for clear, responsive presses, so you keep reliable control of volume and power without stiff or mushy feedback.
