

Urban Armor Gear Samsung S26+ Dot Magnetic Shell in Ash is a lightweight protective case built for reliable everyday use. It combines a slim profile with strong drop protection, a secure grip and magnetic compatibility, making it a practical choice for keeping your phone protected without adding unnecessary bulk.

- Magnetic module compatible with wireless chargers and magnetic accessories
- Lightweight construction with durable impact-resistant protection
- Co-mold design with enhanced corner and screen protection
- Textured anti-slip grip with oversized tactile buttons
- Drop tested to 4.6 metres to meet MIL-SPEC standards

Magnetic module compatible with wireless chargers and magnetic accessories

The integrated magnetic module keeps your device securely aligned with compatible wireless chargers and magnetic accessories. It is designed to work with MagSafe-compatible accessories, most wireless chargers and also supports Samsung Pay, giving you convenient everyday functionality without removing the case.

Lightweight construction with durable impact-resistant protection

This case is made to offer dependable protection while staying light in the hand. The featherlight build helps preserve the slim feel of your phone, while the impact-resistant soft core adds an extra layer of defence against daily knocks and accidental drops.

Co-mold design with enhanced corner and screen protection

The co-mold construction combines durable materials to improve shock absorption and overall protection. Reinforced corner protection helps reduce the impact from drops, while the raised screen surround helps protect the display from scratches and contact with flat surfaces.

Textured anti-slip grip with oversized tactile buttons

A secure grip makes a real difference in daily use. The enhanced textured surface is designed to reduce slipping and improve handling, while the oversized tactile buttons provide a responsive and easy press for a more comfortable user experience.

Drop tested to 4.6 metres to meet MIL-SPEC standards

Built for demanding use, this case has been independently tested for drop protection up to 4.6 metres. It meets MIL-SPEC 810G-516.6 drop-test standards, giving you added confidence that your device is protected in more challenging environments.
