UAG Dot Case with Magnet for Samsung Galaxy S26 - Black

A lightweight and durable case designed to protect your Samsung S26 in everyday use and more demanding environments. With reliable shock absorption, a secure grip and built-in magnetic compatibility, it offers practical protection without adding unnecessary bulk.

- Magnetic compatibility for wireless charging and accessories
- Lightweight design with durable impact protection
- Co-mold construction with shock-absorbing soft core
- Textured anti-slip grip and oversized tactile buttons
- Drop protection tested up to 4.6 meters

Magnetic compatibility for wireless charging and accessories
The integrated magnet module keeps your device securely aligned with compatible wireless chargers and magnetic accessories. It is designed to work with MagSafe-compatible accessories, most wireless chargers and also supports Samsung Pay for convenient everyday use.

Lightweight design with durable impact protection
This case combines a slim, featherlight build with dependable protection, making it ideal for daily use. It adds security to your phone without making it feel heavy or bulky in your hand or pocket.

Co-mold construction with shock-absorbing soft core
Built from a rugged combination of translucent polycarbonate and TPU, the case features a soft, impact-resistant core that helps absorb shocks from drops and knocks. The raised screen surround also adds extra protection against scratches and contact with flat surfaces.

Textured anti-slip grip and oversized tactile buttons
The enhanced textured surface gives you a more secure hold, helping reduce the risk of accidental drops. Oversized tactile buttons are easy to press and provide a responsive feel, making everyday operation simple and comfortable.

Drop protection tested up to 4.6 meters
This case has been independently tested for drop protection up to 4.6 meters and meets military drop-test standards MIL-SPEC 810G-516.6. Reinforced corner protection adds another layer of safety, helping protect your Samsung S26 in more demanding conditions.
