UAG Dot Case with Magnet for Samsung Galaxy S26 Ultra - Ash

Urban Armor Gear Samsung S26 UltraDot Magnet -Ash is a lightweight protective case designed for dependable everyday use. It combines a slim, comfortable feel with strong drop protection, magnetic charging compatibility and a secure grip, so your phone stays protected without becoming bulky.

- Compatible with magnetic charging and accessories
- Lightweight design with dependable impact protection
- Anti-slip grip with oversized tactile buttons
- Precise fit with easy access to the S Pen
- Drop protection tested up to 4.6 metres

Compatible with magnetic charging and accessories
The integrated magnet module keeps your phone properly aligned with compatible magnetic chargers and accessories for a more secure and reliable connection. The case is compatible with MagSafe, works with most wireless chargers and magnetic accessories, and also supports Samsung Pay for smooth everyday use.

Lightweight design with dependable impact protection
This case is built to protect your phone without adding unnecessary weight. Its co-moulded construction combines translucent polycarbonate and TPU with an impact-resistant soft core, giving you strong protection in a slim and practical design that feels easy to carry every day.

Anti-slip grip with oversized tactile buttons
The textured anti-slip grip helps you hold your phone more securely, reducing the chance of accidental drops during daily use. Oversized tactile buttons are easy to locate and press, giving you a more responsive feel while keeping the case protective and comfortable in the hand.

Precise fit with easy access to the S Pen
Designed specifically for the Samsung S26 Ultra, this case offers a precise fit that keeps your phone protected while maintaining full access to key features. The cut-out is shaped for quick and easy access to the S Pen, so you can use your device naturally without removing the case.

Drop protection tested up to 4.6 metres
For added peace of mind, the case has been independently tested to withstand drops from heights of up to 4.6 metres. It also meets MIL-SPEC 810G 516.6 military drop-test standards, making it a reliable choice for anyone who wants strong protection for daily use and more demanding environments.
