

UAG Dryout Phone Rescue Pouch - Black

Keep moisture from lingering around your everyday electronics with the Urban Armor Gear Dryout Phone Rescue Pouch in Black. Its moisture-absorbing DRYOUT interior helps dry phones and other small devices after exposure to rain, sweat, condensation or water. A reusable absorbent core and durable outer shell make it a practical addition to your daily carry or travel kit.

- Active moisture absorption for everyday electronics
- Fits smartphones and other small devices
- Reusable absorbent core
- Durable construction for everyday carry
- Easy access and convenient handling

Active moisture absorption for everyday electronics

The integrated DRYOUT panel absorbs moisture surrounding your device after exposure to rain, sweat, condensation and humidity. Approximate drying times range from 2 to 5 hours after light exposure and 3 to 12 hours after immersion. Before use, turn off your device, remove accessories and removable batteries, and wipe away visible moisture.

Fits smartphones and other small devices

Use the pouch for smartphones, folding phones, smartwatches, power banks, key fobs and similarly sized electronics. It provides a dedicated place to dry small devices without needing a separate pouch for each type.

Reusable absorbent core

The absorbent core can be reset for repeated use. Follow the manufacturer's instructions to reactivate it using sunlight, direct heat or forced airflow, so the pouch is ready for its next use.

Durable construction for everyday carry

A rugged PU coated 600D polyester shell is paired with a 210D embossed liner and an integrated DRYOUT panel. The durable construction makes the pouch suitable for carrying in your everyday bag or travel pack.

Easy access and convenient handling

The hook and loop flap makes it easy to insert and remove your device. A webbing grab handle gives you a convenient way to carry the pouch or clip it to a pack.
