UAG Essential Armor Case with Magnet for Samsung Galaxy S26 - Black

Urban Armor Gear Samsung S26 Essential Armor - Black is a slim, lightweight case built for dependable everyday protection without adding bulk. It combines a comfortable in-hand feel with rugged drop performance, thoughtful grip, and magnetic compatibility for modern charging and accessories.

- Featherlight build with durable impact protection
- Enhanced corner protection with proven drop performance
- Built-in magnet module for magnetic charging and accessories
- Secure grip with oversized tactile buttons
- Camera and screen protection with raised surrounds

Featherlight build with durable impact protection
Designed to stay slim and comfortable in your hand, the Essential Armor uses a co-molded construction with an impact-resistant soft core. The inner hex pattern helps absorb shocks from daily bumps, helping protect your phone while keeping the case easy to carry and handle.

Enhanced corner protection with proven drop performance
Reinforced corners are built to help reduce impact where drops often hit hardest. The case is independently tested to withstand drops up to 5.4 meters and meets Military drop test standards (MIL-SPEC 810G-516.6), providing confidence for everyday use and more demanding conditions.

Built-in magnet module for magnetic charging and accessories
A built-in magnet module supports magnetic charging and works with most wireless chargers and magnetic accessories. It is also compatible with Samsung Pay, so you can keep using key phone features without changing how you carry or charge your device.

Secure grip with oversized tactile buttons
The contoured perimeter edge includes an anti-slip traction grip to help you hold your phone securely in different conditions. Oversized tactile buttons are designed to deliver a clean, satisfying click and reliable control for daily use.

Camera and screen protection with raised surrounds
A raised camera bezel helps protect lenses from scratches when your phone is placed down. The protective screen surround adds an extra buffer around the display, supporting everyday protection without compromising the clean, minimal look.
Package includes:
