- Precision fit with applicator and cleaning kit included

9H tempered glass for strong scratch resistance
The Glass Shield is made from durable 9H tempered glass to help protect the Samsung Tab Active5 display from scratches, scuffs, and abrasions. It is well suited for daily use in demanding environments where the screen is exposed to keys, tools, bags, or rough surfaces.

Ultra-clear HD surface for clean screen visibility
The high-definition glass surface is designed to preserve screen clarity, colour, and detail. It keeps the display easy to read and helps maintain a clean viewing experience without adding unnecessary bulk.

Anti-fingerprint coating reduces smudges and marks
An advanced oleophobic coating helps repel natural skin oils, reducing fingerprints and smudges that can affect visibility. This keeps the screen looking cleaner for longer and makes it easier to wipe down when needed.

Precision touch response for smooth everyday use
The ultra-thin construction supports accurate touch sensitivity, so taps, swipes, and gestures feel responsive. It helps maintain the usability of the Samsung Tab Active5 while adding an extra layer of protection.

Precision fit with applicator and cleaning kit included
The Glass Shield is designed for a precise fit on the Samsung Tab Active5. The included applicator and cleaning kit help support a clean and accurate installation, reducing the risk of dust, marks, or misalignment during application.
