Slim profile with no added bulk
Designed to stay compact and comfortable in your hand or pocket, the Metropolis Wallet keeps your daily essentials together without adding unnecessary thickness to your phone setup. The clean, minimal shape is made to look premium and feel practical day to day.

Holds up to 5 cards and bills
Carry the essentials with space for up to five cards plus bills. Contents stay tucked away and out of view, giving you a neat, organized wallet that's easy to access when you need it and unobtrusive when you don't.

Secure hinge closure keeps contents protected
A durable hinge helps keep the wallet closed and your cards secured while you move through your day. It's built to stay shut in transit, so your cards and cash remain protected and in place.

Multi-angle kickstand for portrait and landscape viewing
The wallet doubles as a kickstand that supports both vertical and horizontal viewing. Whether you're on a video call, watching content, or reading, you can adjust the angle for stable, hands-free use.

Built-in 2.5 mm magnet for secure attachment to compatible magnetic cases and accessories
An ultra-strong 2.5 mm magnet helps the wallet stay firmly attached to compatible magnetic phone cases for added convenience and portability. It's also compatible with magnetic accessories, making it easy to integrate into a magnetic setup.
