UAG Monarch Pro Carbon Fiber Case for Samsung Galaxy S26 - Black

Urban Armor Gear Monarch Pro for Samsung Galaxy S26 is built for everyday use in demanding conditions. It combines a carbon fiber armor frame, layered impact protection, and a secure grip profile in a case that supports magnetic charging and compatible accessories.

- 7.6 m drop protection with multi-layer impact design
- Built-in magnetic module for magnetic charging and accessories
- Carbon fiber signature armor frame with reinforced structure
- Secure handling with contoured grip and tactile button response
- Practical protection details including screen surround and lanyard anchors

7.6 m drop protection with multi-layer impact design
Monarch Pro is engineered with multiple protective layers that work together to absorb and disperse impact. A shock-resistant core and impact-resistant rubber surround help cushion drops, while a rigid polycarbonate shear plate adds structural support and helps protect against scratches and daily wear. Independently tested to withstand drops up to 7.6 m and designed to meet 5X Military drop-test standards.

Built-in magnetic module for magnetic charging and accessories
A built-in magnetic module lets you use magnetic charging and a wide range of magnetic accessories. It is compatible with MagSafe and works with most wireless chargers, so you can charge and mount your device with less hassle while keeping the case on. Samsung Pay is supported.

Carbon fiber signature armor frame with reinforced structure
The carbon fiber armor frame provides a strong outer structure designed to handle real-world knocks without adding unnecessary bulk. Combined with the internal reinforcement and shear plate, it delivers a protective build that stays stable in the hand and holds up over time.

Secure handling with contoured grip and tactile button response
The contoured perimeter grip is designed to improve control during one-handed use and help reduce slips. Oversized tactile buttons give a clear, responsive click, making it easier to adjust volume and lock the phone with gloves or on the move.

Practical protection details including screen surround and lanyard anchors
A raised protective surround helps reduce contact between the screen and flat surfaces. Integrated lanyard anchor points add an extra layer of security and portability, giving you more ways to carry and handle your phone in active environments.

Package includes

- Urban Armor Gear Samsung S26 Monarch Pro Carbon Fiber Protective Case - Black

Product specifications

- Drop protection: up to 7.6 m
- Drop-test standard: MIL STD 810G 516.6 (5X Military)
