

UAG Monarch Pro Case for Samsung Galaxy S26 Ultra - Titanium

Urban Armor Gear Samsung S26 Ultra Monarch Pro Titanium is built for customers who want serious drop protection without compromising everyday usability. With a layered construction, secure grip, and magnetic compatibility, it keeps your Galaxy S26 Ultra protected and ready for daily travel, work, and outdoor use.

- Layered armor protection built for real drops
- Magnetic module compatible with MagSafe accessories and wireless charging
- Secure, anti-slip perimeter grip for confident handling
- Oversized tactile buttons and precise access to S Pen
- Integrated lanyard anchor points for added security

Layered armor protection built for real drops

Monarch Pro is engineered with multiple protective layers that work together to absorb impact and reduce damage from everyday accidents. It combines a shock-resistant core, a rigid polycarbonate shear plate, and an impact-resistant rubber surround to help guard against drops, dents, and scratches. Independently tested drop protection is rated up to 7.6 meters and meets 5X Military drop-test standards (MIL STD 810G 516.6).

Magnetic module compatible with MagSafe accessories and wireless charging

The built-in magnetic module is designed to work with MagSafe-compatible accessories and most wireless chargers, helping you keep your setup simple at home, in the car, or at the office. It also supports Samsung Pay, so you can keep using tap-to-pay features without changing how you carry your phone.

Secure, anti-slip perimeter grip for confident handling

A contoured perimeter grip with anti-slip traction improves control during one-handed use and while on the move. It's designed to reduce the chance of slips in daily handling, whether you're commuting, working on-site, or using your phone outdoors.

Oversized tactile buttons and precise access to S Pen

Oversized buttons deliver a crisp, responsive feel, making common actions easier with or without gloves. The case is precisely fit for the Samsung Galaxy S26 Ultra, with accurate cutouts that keep ports accessible and provide full, easy access to the S Pen.

Integrated lanyard anchor points for added security

Built-in lanyard anchor points add an extra layer of security and portability. They're useful for travel, job sites, and busy daily routines where a more secure carry option helps reduce the risk of drops.

Package includes
