

Urban Armor Gear Samsung S26+ Plyo Case with Magnetic Function for Optimal Protection and Design - Ice is built for everyday use with a clean, lightweight profile. It combines reliable drop protection with a clear, anti-yellowing design and an integrated magnetic module for easier charging and accessory use.

- Integrated magnetic module for wireless charging and magnetic accessories
- Anti-yellowing clear design that keeps its clarity over time
- Lightweight construction with a shock-absorbing frame
- Reinforced corners and raised protection around the screen
- Independently tested drop protection up to 4.8 m

Integrated magnetic module for wireless charging and magnetic accessories

The built-in magnet module helps align your Samsung S26+ with compatible wireless chargers and magnetic accessories for a secure hold and a smoother charging experience. Designed to work with MagSafe-compatible and Qi wireless charging setups, and it supports Samsung Pay.

Anti-yellowing clear design that keeps its clarity over time

The Ice finish is made to show the original look of your phone while staying clearer for longer. Anti-yellowing technology helps reduce the discoloration that can happen with everyday exposure to light, heat, and handling.

Lightweight construction with a shock-absorbing frame

A flexible TPU frame absorbs and disperses impact, while the durable polycarbonate backplate adds structure and scratch resistance. The result is dependable protection that doesn't feel bulky in the hand or in a pocket.

Reinforced corners and raised protection around the screen

Air-soft cushioned corners add extra protection where drops most often hit. The protective screen surround helps reduce the chance of screen contact with flat surfaces during daily use.

Independently tested drop protection up to 4.8 m

Engineered for real-world drops and knocks, the Plyo Case is independently tested to withstand drops up to 4.8 meters and meets 3X military drop-test standards (MIL-SPEC 810G-516.6).

Package includes
