UAG Trooper Case with Magnet for Samsung Galaxy S26 Ultra - Clear/Ash

Built for demanding everyday use, the Urban Armor Gear Trooper Magnetic Shell gives your Samsung S26 Ultra strong drop protection in a clear and modern design. It combines rugged materials, magnetic compatibility and practical details that help protect your phone without getting in the way of daily use.

- Clear two-piece design with integrated port protection
- Built-in magnetic module for wireless charging and magnetic accessories
- Rugged PC and TPU construction with impact-resistant core
- Secure grip and oversized responsive buttons
- Drop protection tested up to 9.1 meters

Clear two-piece design with integrated port protection
The two-piece translucent design gives the case a clean look while letting the phone remain visible. It is designed for quick and easy installation, and the integrated port cover helps protect against dirt, dust and debris during daily use.

Built-in magnetic module for wireless charging and magnetic accessories
The integrated magnet module keeps the phone aligned when used with compatible wireless chargers and magnetic accessories. It is designed to work with MagSafe-compatible accessories, most wireless chargers and also supports Samsung Pay for convenient everyday functionality.

Rugged PC and TPU construction with impact-resistant core
This case is made with a co-molded combination of PC and TPU for a strong outer shell and dependable shock absorption. The reinforced soft impact-resistant core is built to help disperse force during drops and bumps, making it a strong choice for users who want premium protection.

Secure grip and oversized responsive buttons
A textured anti-slip surface helps provide a more confident hold and reduces the risk of accidental drops. The oversized tactile buttons are designed to feel responsive and precise, while the case also includes a precise cutout for easy access to the S Pen.

Drop protection tested up to 9.1 meters
The Trooper Magnetic Shell has been independently tested to withstand drops from heights of up to 9.1 meters. It also meets 5 times MIL-STD 810G 516.6 standards, giving added reassurance for users who need reliable protection in tougher environments.

Package includes
