usbepower

Usbepower AERO Mini Luxury Edition - Copper

Charge two devices at once and keep your charging space organised. The Usbepower AERO Mini Luxury Edition combines two USB ports, a built in phone stand and a cable winder in a compact charger with an elegant soft touch finish.

- Charge two devices at once
- Automatic power distribution
- Keep your phone supported while charging
- Store your cable neatly
- Compact design with a soft touch finish

Charge two devices at once
Use the two USB ports to charge your smartphone, tablet or other USB powered devices simultaneously from a single wall socket. The ports are positioned on the bottom of the charger for easy access.

Automatic power distribution
The charging system detects connected devices and adjusts power delivery to suit them. It manages the available power between both USB ports, so you can charge two devices without adjusting any settings.

Keep your phone supported while charging
The integrated phone stand gives your device a dedicated place to rest while it charges. Use the charger as a convenient dock rather than leaving your phone on a nearby surface.

Store your cable neatly
The built in cable winder helps keep your charging cable tidy and close at hand. Wrap the cable around the winder to reduce loose cable around your wall socket.

Compact design with a soft touch finish
AERO Mini Luxury Edition combines practical charging features with a compact shape and a soft touch finish. Its understated design fits naturally into your home, whether beside your bed or in your living space.

Package includes

- 1 x Usbepower AERO Mini Luxury Edition USB wall charger with 2 USB ports
