Usbepower AERO MINI Luxury Edition - Gold

The Usbepower AERO MINI Luxury Edition wall charger with two USB ports, phone stand and cable reel keeps two devices charging and your space organised. Its compact design combines intelligent power distribution with a built-in stand and cable storage, finished in soft-touch gold for a refined look at home or at work.

- Charge two devices at once
- Intelligent power distribution
- Built-in phone stand
- Integrated cable reel
- Gold finish with SGS-certified safety

Charge two devices at once
Power your phone and another USB device from a single wall outlet. Two USB ports provide a combined output of up to 2.4 A, making AERO MINI a convenient charging solution for smartphones, tablets, earbuds and other USB-powered accessories.

Intelligent power distribution
The dynamic charging system detects connected devices and distributes the available power between them. This helps deliver efficient charging within the charger's total output, whether you connect one device or two.

Built-in phone stand
Keep your phone supported and in view while it charges. The integrated stand is useful for checking notifications, following a recipe or making a video call without laying your phone flat on the counter.

Integrated cable reel
Keep excess charging cable neatly wound around the charger instead of trailing across your desk or worktop. The built-in reel helps reduce tangles and keeps your charging setup organised, whether you are at home, in the office or travelling.

Gold finish with SGS-certified safety
A soft-touch exterior and gold finish give AERO MINI a considered look that suits modern interiors. SGS certification and over-voltage protection provide added reassurance for everyday charging.

Package includes

- Usbepower AERO MINI Luxury Edition wall charger with two USB ports, phone stand and cable reel

Product specifications
