usbepower

Usbepower Cosmo Cable USB-A to Ligtning 1m - Navy Blue

Charge, sync and keep your cable neatly organised. The Usbepower Cosmo Cable combines a durable braided finish, metallic connectors and an integrated rubber ball winder in a practical 1 m design. Apple MFi certification gives you confidence when connecting your compatible Lightning devices at home, at work or on the go.

- Charge and sync your Lightning devices
- Durable 1 m braided fabric cable
- Integrated winder for tidy, adjustable cable management
- Metallic connectors for a dependable connection
- Apple MFi certified for compatibility you can trust

Charge and sync your Lightning devices
Connect your Lightning-enabled Apple device to a USB-A power adapter, laptop or other compatible USB-A port. Whether you need to recharge your device or transfer data, the Cosmo Cable handles both tasks with one convenient connection.

Durable 1 m braided fabric cable
The braided fabric exterior helps protect the cable against everyday wear and gives it a refined finish. Its 1 m length provides practical reach without unnecessary bulk, making it easy to use at your desk or carry in your bag.

Integrated winder for tidy, adjustable cable management
Keep excess cable out of the way with the built-in rubber ball winder. Adjust the available cable length to suit your space, then wind it neatly for storage when you are finished. It is a simple way to keep desks and travel bags more organised.

Metallic connectors for a dependable connection
The metallic connectors provide a secure fit for charging and syncing, while adding a solid feel to the cable. Together with the braided fabric finish, they create a considered design made for regular use.

Apple MFi certified for compatibility you can trust
Choose a cable designed to meet Apple’s standards for compatibility and performance. MFi certification means the Cosmo Cable is made to work with supported Lightning-enabled iPhone, iPad and other Apple devices.
